Professional Summary

Full-Stack Developer with 2+ years of experience delivering production-grade applications in Next.js, TypeScript, and Node.js. Proven ability to design, ship, and maintain end-to-end features in agile environments, with 70-225% gains on efficiency, automation, and customer experience. Open to remote (US/EU).

Skills

- **Frontend:** React, Next.js 14, Vite, TypeScript, Tailwind, MUI, Framer Motion, Redux Toolkit, RTK Query
- **Backend:** Node.js, Express, Prisma, PostgreSQL, MongoDB
- **DevOps & Infra:** Docker, GitHub Actions, AWS (basic), Vercel
- **Testing:** Jest, Cypress
- **Other:** RPA (UiPath, Automation Anywhere), Agile/Scrum, Stripe

Professional Experience

Full-Stack Web Developer & RPA Developer

Nartex Software – Remote / Sevilla, Spain

Software Development Consulting

Jan 2025 – Present

- Developing production-grade web applications with React, TypeScript, Next.js 14 (App Router), Tailwind and Node.js for internal tools and client-facing projects
- Designed and implemented responsive frontends and REST APIs that reduced manual data entry by 70-225% for two business units
- Introduced modern development practices (Git workflow, component libraries, CI/CD via GitHub Actions) to a team previously using only low-code RPA tools
- Built and deployed legacy Robotic Process Automation (RPA) bots in UiPath serving government clients

RPA Developer / Support Engineering Team Lead

MCCM Innovations (Siemens client) – Remote / Cádiz, Spain

Boutique AI & Automation Agency

Jul 2023 – Jan 2025

- Self-trained in modern web stack (React + TypeScript) while working full-time and delivered two internal dashboard prototypes adopted by management
- Built and maintained UiPath & Automation Anywhere RPA solutions processing 5,000+ invoices/month for Siemens
- Led the client international support team of 4, reducing average ticket resolution time from 48 h → 4 h by creating reusable automation components
- Migrated critical processes to new architecture after client requested cost reduction, extending project lifespan by 6 months

Front Desk Receptionist → Career Transition

Various Hotels Sevilla, Spain

Hospitality Sector

2016 – 2023

- Delivered multilingual customer service (Spanish, English, basic German) in high-demand hospitality environments while self-learning programming.
- Completed cybersecurity and full-stack development certifications (Google Cybersecurity, Security+, freeCodeCamp, Scrum Master) and transitioned into software development through self-funded training.

Projects

Thai Massage Booking System

Live: <https://bit.ly/3XK8yOY>

GitHub: <https://bit.ly/3XLZFEx>

Next.js 14 + TypeScript + Prisma + PostgreSQL + Tailwind + Stripe test integration

- Full-stack booking platform with real-time availability, automated email/SMS reminders and payment flow
- Eliminated double-bookings and reduced no-shows from ~20 % → <3 %
- Mobile-first design – 90 %+ of bookings now completed on phones

E-commerce Store

GitHub: <https://bit.ly/4rHROpj>

Live: <https://bit.ly/4aFEnjr> (hosted on Render free tier; first load may take a few seconds)

Next.js 14 + Stripe Checkout

- Full-stack store with cart persistence, Stripe Checkout integration, inventory admin panel, Next.js Server Components

Law Firm Showcase Website

Live: <https://bit.ly/3Kp4PmV>
GitHub: <https://bit.ly/3MqZX1i>

Next.js 14 (App Router) + TypeScript + Tailwind CSS + Framer Motion

- Built modern, fully responsive single-page marketing site for a family-run law firm (desktop + mobile optimized)
- Implemented smooth animations, dark mode toggle and SEO-friendly structure – achieved 100/98 Lighthouse scores
- Deployed on GitHub pages – now the firm’s official online presence

Certifications & Professional Training

CompTIA Security+ (SY0-701), Google Cybersecurity Certificate, freeCodeCamp Full-Stack, CSM, UiPath Advanced RPA Developer

Education

B.A. in Tourism and Hospitality Management 2015
University of Cadiz - Spain

Physics coursework (2 years toward B.Sc.) 2018 – 2020
UNED (Universidad Nacional de Educación a Distancia) – Remote

Relevant coursework: Computational Physics (MATLAB, C programming, numerical methods)
